

Hey Y'all,

I loveee sending cards to my loved ones — whether it's for a special occasion, a birthday, or just because! But I would find myself spending hours in different card shops looking for an expressive way to share the perfect sentiment with someone I love.

And sometimes, I just couldn't find the perfect card. So I decided to create some!

Sunnii Michele Design is our modern take on expressing everyday sentiments and emotions we share with one another. Our cards are conversational, funny, expressive, and filled with lots of personality. Sometimes the language isn't grammatically correct — and that's intentional.

It's meant to reflect the way many of us actually talk, text, laugh, celebrate, and share love with the people in our lives. So please, don't call the grammar police on us. We got this! 😂

I've never walked into a card store and seen sentiments like "I Got You" or "Yasssssss!" staring back at me. Yet, we say things like this all the time as terms of endearment and as ways to show excitement, care, encouragement, and love to our family, friends, and communities.

That's why you'll find sentiments like these in our Essential Collection.

Maybe you just landed that promotion. Bought your first home. Reached your weight-loss goal. Tried something new. Passed the test. Or finally did that thing you've been working toward.

Sometimes "Congratulations" works. And sometimes the only appropriate response is "Yasssssss!".

That's Sunnii Michele Design.

We see our cards as expressive little pieces of art that push the boundaries of what a greeting card can say and be. We're far from traditional — and that's the point.

Every card is designed with the intention of celebrating life's meaningful moments, no matter how big or small.

I hope you find one that sounds like something you would actually say or something you'd send to a friend, loved one, co-worker, neighbor, boss, or your favorite in-loves.

With warmth & sunshine,

The logo for Sunnii Michele Design features the word "Sunnii" in a stylized, orange, cursive font. A large, flowing orange line starts from the bottom left of the letter 'S' and curves upwards and to the right, ending under the letter 'i'.
